

## Apple Gift Boxes

We will have Haralson, Fireside, or Connell Red available in a single layer gift box holding 18 to 20 great tasting Minnesota apples. Each box will have a variety description giving apple characteristics and a little history. We will also include our mission

statement and a flyer with background on our farm, family, and growing practices. This will make a great holiday gift for your friends, neighbors, or family. Skip the grocery store gift basket with bland oranges and the tasteless Red and Golden Delicious apples from who knows where. Give a gift of fruit that not only looks nice but also will be enjoyed when eaten! You have been eating great tasting, fresh packed Hoch Orchard apples since August, so you know the apples in the gift you give will be delicious. Your friends and family will appreciate knowing that the apples were grown using environmentally friendly methods on a Minnesota family farm.

Unfortunately, we don't mail out fruit from the farm, but the gift boxes are in sturdy shippable containers that you could wrap and mail. You can get our gift boxes at the following Cooperatives:

**Peoples Food Coop in La Crosse**  
**North Country Coop in Downtown Minneapolis**  
**Seward Coop on Franklin Ave in Minneapolis**  
**Linden Hills Coop in South East Minneapolis**  
**Mississippi Markets in St Paul**

Some of the stores will stock the gift boxes while others will have a display box to see and will take orders.
